

# Certified Baby Signs® Program Provider

## The Original Sign Language Program for Babies

Based on two decades of research, the Baby Signs® Program has been proven to reduce frustration, build trust, promote positive emotional development, jumpstart intellectual development, and strengthen the parent-infant or caregiver-infant bond. Visit us at [www.babysigns.com](http://www.babysigns.com).

### Workshops

Baby Signs® Parental Workshop  
&

### Classes

Concurrent Baby Signs® Class  
class runs for six (6) weeks

### Benefits of Baby Signs®

Using the Baby Signs® Program stimulates intellectual development, reduces frustrations, allows babies to share their worlds.

Using the Baby Signs® Program improves parent-infant and caregiver-infant bond, and makes learning to talk easier.

The Baby Signs® Program incorporates the most useful, "baby friendly" signs from American Sign Language and combines them with signs that babies and parents have created themselves and found particularly useful.
